

Marcela & Kresimir

Dear birth parents

We are Marcela and Kresimir and we appreciate you taking the time to read about our story. We want you to know that we admire your decision to make an adoption plan. We know it is hard and very emotional. We will ensure that our child receives all the love we can give and we respect your wishes around openness.

We hope this book will share with you who we are as a family and as individuals. We look forward to meeting you!

We met in 2002, in Santiago, Chile, when we were studying Chemical Engineering in the same University. We connected the last year and we started dating. A few years later, Kresimir proposed and we got married in 2015 surrounded by family and friends.

Why I love Marcela

Marcela is my partner, soulmate, and best friend. She is smart, driven, strong and always concerned about the well-being of others. It's in her nature to try her best to help in any way she can. Even when faced with difficult challenges, she has found a way to stand up and keep going, which is something I've always admired. Her passion to grow as a person has helped me to be a better man and husband. I can see that all these qualities will make her an excellent mother and role model.

Why I love Kresimir

Kresimir is the love of my life. We connected so easily that I sometimes think our love chemistry came from another life. He is super smart and I'm very proud of all his professional achievements. He is very loyal, and stayed with me even in the most challenging life moments. He loves playing with my nieces and nephews. Looking at his face and seeing how happy he is with children, I know he'll be the best dad ever. He would love to teach our child about the world and fun/nerd facts, that's another reason that makes me love him more and more every day.

Our home and neighborhood

We live in a townhouse community in BC's lower mainland. We own our house, it has three bedrooms and two bathrooms. It's close to lakes, rivers, and forest. Our neighbourhood is family oriented, with kids' playground, parks, and schools close by.

Meet Lily

We're Lily's proud pawrents. She is our little furry puppy child (and she'll always be). One of her best characteristics is that she loves children. She loves cuddling and playing fetch. She goes with us on every adventure.

Our Interests

We love the nature that surrounds us. We enjoy hiking and working in our community garden. We believe sustainability is important for the future. We love to travel, learn new cultures and discover amazing places.

Extended Family

We are here with our nieces, nephews and some Grandparents

Our promise to you

Love our child no matter the circumstances
Provide a loving home that fulfill our child needs.
Be the best parents we can, passing everything we have learned.
Always support our child's dreams.
We promise to never break any of these promises.

M & K
