

Derek & Cali-Jo

A Little About Us

We met in 2012 in an unconventional way and when we can say it was in the middle of no where, it was literally in the middle of no where. On the top of a mountain in a mining exploration camp in BC. We became friends and realizing we had similar interests and family values brought us into a relationship where we fell madly, truly, and deeply in love. We were married in 2015 with our closest family and friends at our sides. It was small, intimate and the day we will forever remember as the day we became Mr & Mrs. Unfortunately fertility issues have prevented us from conceiving our own child, which has led us to the miracle of adoption.

What We Love & How We Live

We love, love, love to travel! Whether it be tropical destinations, camping in our RV, or quick trips across the border for new experiences. Some of the places we have been are Mexico, Dominican Republic, Hawaii, Nashville, Las Vegas, Texas, and Seattle. We are so excited to show a child this beautiful world. We also enjoy our time at home together where you can find us gardening, spending time with our families and loving on our fur-kids Oscar (cat) and Gemma (dog). Cali also actively competes in the National Cutting Horse Association where in 2017 she finished 3rd overall in Canada! Horses are a huge part of her personal and professional life as she owns and operates her own equine sports therapy company. Speaking of work, Derek is very accomplished and holds his Canadian Registered Safety Professional designation and is an Occupational Health & Safety Manager for a large construction company. Education and career is important to us and we look forward to providing those values to a child.

From Us To You

We vow to love your baby with the entirety of our hearts. We will never cease to show your child the beautiful person they are. We promise that they will always know of you and the love you have for him/her. They will never forget you and the amazing decision you made. We will constantly strive to be better parents each and every day and will never cease to show our child the beauty of this world and everybody in it.
