

Kat and Hannah

We are so excited to become parents and we are incredibly grateful that you are considering choosing us for your child.

We try to look at life with curiosity and fun; on hikes we have slug-counting competitions, we like travelling, learning about different cultures, art, and animals around the world. We're so excited to continue to learn and teach a new person about this amazing place!

Our home and life is ready for someone new, we would be honoured to welcome your child.

Our Story

We met in University in 2011. We quickly built a strong friendship which grew into a romance and it has been an exciting adventure ever since!

We have two rescue dogs named Garbonzo and Chai, they are great trail buddies and even better snugglers.

We spend most of our time running wild on various beaches, visiting every coffee shop and bakery that catches our eye, making art, and cozying up on the couch for movie nights.

We got married on Vancouver Island in 2015. A few days after the wedding, we moved to the Lower Mainland. We have found a community of kind, kindred spirits here in Vancouver and we are so lucky to have made our home in such a diverse neighbourhood.

Openness

We believe that community is important, and we would love for our child to be able to connect with every member of their family.

About Hannah

by Kat

Hannah is a kind and attentive partner. She is a fast and avid learner and is always striving to make sure the people around her feel supported and listened to. She is silly and fun and I love that she will always make time for us to just hang out together or with very close friends. She inspires me to be better at asking for help and to set goals for the future.

As a parent I think Hannah will continue to be a calm and caring mother. She is always ready to play a silly game and her imagination seems to be endless. I can't wait to see Hannah showing our child around a garden or science world exhibit, the childlike wonder is strong in this one!

About Kat

by Hannah

Kat is outgoing and can make friends with anyone she meets. People often comment on how she makes them feel special with little things like remembering their name after meeting once, or doing thoughtful things out of the blue. She is very creative and generous. She loves her routine and always packs our weekends with projects and social visits.

I imagine Kat will be our kid's rock, she is very dependable and stays emotionally neutral yet empathetic when needed. She will want to take them on lots of adventures and teach them new things. She won't let them get away with breaking all the rules, unless of course they come up with a logical reason to do so.
