

## We are Kate and Nick

We are Kate and Nick! A playful couple that values family, community and the wild and wonderful outdoors.

We live in a small ski town filled with friendly people, surrounded by lakes, rivers, and forested trails to explore.

Adoption has been a big part of our lives. Three of Nick's siblings are adopted as well as Kate's stepmother. Because of this, adoption has always been on the table for us. Our priority as parents will be to do what is best for our children through education, play, and honoring their individual journey.

## About us

We have been together for ten years, married for eight. We both do a lot of skiing, ice fishing and snowy adventuring in the winter. During the spring to fall, we spend time hiking, mountain biking, foraging, gardening and swimming at one of the surrounding lakes.

We see ourselves as a team, both bringing different but equally important strengths to our family. We lean on each other through hard times, lift each other up and truly enjoy our time together.

Kate is a nurse and enjoys any activity that involves spending time connecting with loved ones or meeting new friends. She enjoys attempting new recipes in the kitchen and regularly explores nature through trail running, mountain biking, skiing, or simply wandering the woods. The genuine joy she feels when helping and listening to others shows through her authenticity. Kate loves to sing and dance whenever there is an excuse (and sometimes she does it without one!). Nick works for environment Canada and has a deep love of gardening, music, biking and skiing. Nick is naturally drawn to helping others and is quick to lend a hand or a listening ear. His authentic self shines wherever he goes, bringing litness and joy to others. He builds strong relationships with others as he is loyal and cares deeply for the people in his life.

We are excited at the thought of introducing this little one to our world, sharing the things we enjoy and creating a space for them to grow and develop their own passions and curiosities. Nick looks forward to teaching skiing or snowboarding (or both!) during the day and sipping hot chocolate by the fire in the evening. Kate dreams of exploring trails, visiting nearby hot springs and planning family camping where we can teach the newest addition to the family the art of the perfect s'more and how to catch grasshoppers.

This child will be our most incredible adventure, and we are so ready to fulfil an active and joyful role in the kind, sensible, compassionate person they become.

Thank you for taking the time to read about us
