

I am so grateful for the role the Adoption Centre of BC played in starting my family. I appreciated their willingness to work with me as a single Mom who dreamed of adopting a child with Down Syndrome. I felt very supported and that they cared about me and my future child. It was a very positive experience.

On January 31, 2015, Wyatt left the Bulgarian Centre's doors for the last time at the age of 7 and we became a family. He is now 14 and everyday, through the ups and downs, I am so grateful he is mine. He makes the world a better and more compassionate place and has a great sense of humour.

Thank you to the Adoption Centre of BC for all you did to make my dream a reality. We are so grateful for you all.

Heather and Wyatt

On a side note. Wyatt is now a big brother to Kason, who is 10. He joined our family through an MCFD adoption 3 years ago after we were able to provide respite for 9 months to test the waters and see if we were a good fit. I had always planned to adopt internationally again but with Wyatt's needs I wasn't sure I was ready for another Bulgarian firecracker lol.
